

The UBi Project: Engaging German Companies for Biodiversity

Objective

Unternehmen Biologische Vielfalt – UBi informs businesses about the importance of biodiversity, promotes networking and dialogue, and supports their activities for the conservation of biological diversity. UBi provides valuable information, inspiration, and practical support for individual companies, as well as offering a space for business associations to cooperate with politics and nature conservation.

Dialogue & Networking

- Get informed and network at public **events**.
- Become an active member of the **circle of supporters** as a business association.
- Submit your biodiversity project to our **competition** (in German) in autumn 2025.
- Get informed about **international developments** in the field of business and biodiversity.

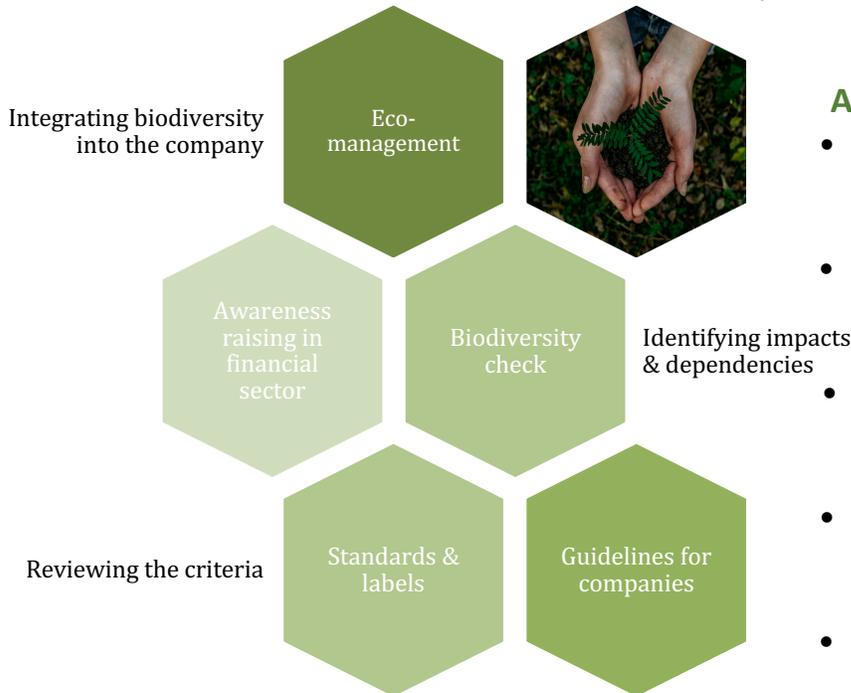

Lighthouse Initiatives

- Become a member of [Food for Biodiversity](#) to get more information about biodiversity performance in the supply chain and receive implementation support. Exchange of experiences in a protected space and joint initiatives are important.
- Utilize the potential of your [company premises](#) and get advice on ecological enhancement.

Training & Networks

- **Get coached** for the development of your own biodiversity strategy.
- Network with regional actors in a **Biodiversity Alliance** (in German).
- Keep up to date with current political and scientific developments in the field of biodiversity.

Awareness Raising & Tools for Companies

- Quick questionnaire with 15 questions to help identify important biodiversity hotspots: **Significance Check** (in German).
- Work with experts in a workshop to identify areas of action and options for your company (Biodiversity Quick Check).
- Check your impacts and dependencies on biodiversity and develop measures with experts using a **Biodiversity Check**.
- Use our comprehensive **guidelines** for integrating biodiversity into your corporate management.
- Steer your purchasing using **standards and labels** with demanding biodiversity criteria and train your procurement team!
- Start with a DGNB-certified company premises and monitor changes with **Nature Incorporate**.
